Systems building Investments (2021-2025)

Anticipatory Action Delivery (2025)

Drought AA activated
for Marsabit and
Wajir during OND
2025

Seasonal forecasts
and readiness
planning – Jul - Aug
2025

Pre-agreed SPI
drought thresholds
reached in
September 2025

Activation decision
confirmed jointly
by: KMD, NDMA,
NDOC, ICPAC,
Counties

Pre-arranged
financing (USD 4
Million) released in
time.

Timely
implementation of
priority early actions
– Oct-Dec 2025

After Action Review
(AAR) in Feb 2026

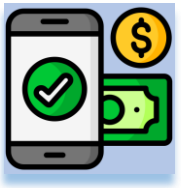

Coverage Achieved

462,000 reached with EW and Climate advisories

7,344 PBW and Children <2yrs received nutrition cash top-ups

10,750 HHs (64,500 people) reached with anticipatory Cash Transfers

28,800 people received nutrition-focussed SBCC messaging

World Food Programme

Key Gaps Identified

Triggers: Reliance on a single indicator (SPI) limits trigger robustness.

Readiness: Shorter lead time for readiness due to delays in release of forecast

Coordination: National & Sub national communication and feedback loops

Financing: Limited pre-arranged funds for achievement of scale.

Data:

Enhanced Single Registry (ESR)
update gaps affect targeting accuracy

Meteorological data gaps due to sparse observation networks
